Tutorial: How to install the ink cartridge & the battery into the puck

1/ thanks to a flat screwdriver, remove the two screws at the top of the puck

2/ gently remove the hood of the puck (to avoid any destruction of the band of connectors)

3/ With the flat screwdriver, remove the 4 screws on the green base

4/ gently raise the green hood (to avoid any destruction of the band of connectors)

5/ Remove the ink cartridge of its pack

6/ Remove the protective film on the ink jet head

7/ place and clip the ink cartridge into the place provided on the green base

8/ Reposition the hood back on the base, then fix it with the 4 screws

9/ Take the battery and connect it to the connector, then place it between the 3 pins

10/ place the hood back then fix it with the 2 screws

11/ your inkjet air cushion puck is now ready to use !
