

## **Tutorial: How to assemble the accessory: Centre of inertia**

1/ pass the connector through this accessory

2/ then fix the ink cartridge carrier with the help of the Velcro tape

3/ Fasten this second accessory on one of the pucks thanks to the provided elastic

4/ Using the Velcro, link both devices onto the second puck

5/ Place the ink cartridge carrier between the two pucks. Then link the connector on one of the two pucks
